DETAILED ACTION

Allowable Subject Matter

1. Claims 21-32, 37, 38 and 40 are allowed.
2. The following is a statement of reasons for the indication of allowable subject matter: The closest prior art of record is EP 397,245, which teaches that polyethylene-perfume complexes may be combined with silicone oils, such as polydimethylsiloxane in fabric softening compositions. Applicant has demonstrated that compositions containing both polyethylene and polydimethylsiloxane have properties which are not disclosed in the prior art. EP 459,822, also cited, discloses a broader genus of useful silicones, but the motivation to combine them with polyethylene comes from a secondary reference. While the '822 is a broader teaching, the '245 is closer prior art. Accordingly, disclosing unexpected properties commensurate in scope with the disclosure of the '245 makes the claims allowable over the prior art of record.
